This is a sample document format for the one-page abstract for submissions to **ECONOS 2019 Conference**, which will be held in Rouen, France, from April 7th to 10th. The abstract should highlight your last results, their novelty compared to the state of the art of the bibliography. In order to unify abstract appearance, here are some typographic and formatting guidelines.

Although this document is provided in Microsoft Word format, the paper to be uploaded must be in **PDF format**. Paper size should be **A4 format** (210 mm x 297 mm). Margins should be set for a **2.5 cm top, bottom, left, and right**. For text fonts: use only **10pt Times** (roman, **bold** or *italic*), and Symbol. Sans Serif Fonts such as Arial can be used in Figures. Include all equations, drawings, figures and references within the **one page limit**. Avoid asterisks, acknowledgements, job descriptions or footnotes. **Do not add page numbers**.

Simple equations should be included in-line wherever possible, whereas more complex expressions should be centred and numbered if there are several. Figures should be relevant to the submission and preferably centred as shown below. Placing subfigures side-by-side is a convenient way to include multiple results within the one-page limit. The figures can be provided in greyscale or colours. Figure captions should be centred beneath figures and in an 8-point font. Figure captions should be indented 1 cm on both sides and justified on both right and left sides.

Fig. 1 The abbreviation "Fig." (for figure) should appear first, followed by the figure number, a period, and then the figure caption.

References should appear at the end of the article in the order in which they are referenced in the body of the paper. The font should be 8 point, and the references should be aligned left. A suggested format for references is given below. Within the main text, references should be designated by a number in brackets [1], and they should precede a comma or period [2]. Two references cited at once should be included together [2,3], separated by a comma, while three or more consecutive references should be indicated by the bounding numbers and a dash [1–3].
